

To whom it may concern;

Diesel Laptops is the sole source provider of The Diesel Laptops All Makes Dealer Level Diagnostic Kit Powered By TEXA IDC5.

This “Kit” includes several products and services that have been developed by and are exclusively distributed by TR Systems and its subsidiaries (including Diesel Laptops, making TR Systems the sole source for the items listed below:

- Diesel Laptops exclusive TEXA training – video, web based and remote.
- Diesel Laptops US Based technical support – though remote log in, web, chat and phone
- DTC Solutions: Truck – fault code troubleshooting software
- DTC Solutions: Off Highway – fault code troubleshooting software
- Diesel Laptops Knowledge Base – OEM Service Manual troubleshooting and repair Information
- TruckFaultCodes.com – troubleshooting and repair information that can be utilized on any device connected to the internet
- Truck Fault Codes mobile app for iOS and Android
- Diesel Laptops Labor Time Guide
- Diesel Scan maintenance reporting for TEXA
- Diesel Defense asset protection software
- The Kit is delivered as a “plug and play” product. All software is installed on a refurbished Panasonic CF31 Military Grade Toughbook, licensed and configured, making the “Kit” ready to go out of the box.
- Diesel Laptops Exclusive 30 Day 100% Satisfaction Money Back Guarantee

As stated, TEXA IDC5 is included with The Diesel Laptops All Makes Dealer Level Diagnostic Kit. While there are numerous distributors for TEXA throughout the US, Diesel Laptops is the sole source distributor that is able to deliver all items listed above.

Thank you for considering Diesel Laptops.

Sincerely,

William Ward
